RE: Site Inspection, Ancient Critters, Mineral Fossil Lease #42750 Mine, Ed Cole,
S/027/014, Millard County, Utah

Date of Inspection: January 30, 1992
Time of Inspection: 1635 - 1735
Conditions: Sunny, cool, some snow drifts
Participants: Wayne Hedberg, Tony Gallegos, DOGM

This site and the other nearby Trilobite operations were inspected while in the area. The inspections were not planned and were cursory in nature. All sites are located on State Lands.

This site is the second site encountered when driving up the access road. No one was currently working this site upon our arrival. The disturbance has changed only slightly and did not appear to grow significantly. Photographs were taken to compare with previous Division photos.
